since the early 2010s an increasing number of european countries have passed laws that prohibit the wearing of various kinds of islamic veil in particular circumstances this insightful book considers the arguments used to justify such laws and analyses the legitimacy of these arguments both generally and in regards to whether such laws can be seen as justified interferences with the rights of women who wish to wear such garments

to modernity the politics of the veil is an explosive refutation of this view one that bears important implications for us all joan wallach scott the renowned pioneer of gender studies argues that the law is symptomatic of france s failure to integrate its former colonial subjects as full citizens she examines the long history of racism behind the law as well as the ideological barriers thrown up against muslim assimilation she emphasizes the conflicting approaches to sexuality that lie at the heart of the debate how french supporters of the ban view sexual openness as the standard for normalcy emancipation and individuality and the sexual modesty implicit in the headscarf as proof that muslims can never become fully french scott maintains that the law far from reconciling religious and ethnic differences only exacerbates them she shows how the insistence on homogeneity is no longer feasible for france or the west in general and how it creates the very clash of civilizations said to be at the root of these tensions the politics of the veil calls for a new vision of community where common ground is found amid our differences and where the embracing of diversity not its suppression is recognized as the best path to social harmony

during the later middle ages new optical theories were introduced that located the power of sight not in the seeing subject but in the passive object of vision this shift had a powerful impact not only on medieval science but also on theories of knowledge and this changing relationship of vision and knowledge was a crucial element in late medieval religious devotion in seeing through the veil suzanne conklin akbari examines several late medieval allegories in the context of contemporary paradigm shifts in scientific and philosophical theories of vision after a survey on the genre of allegory and an overview of medieval optical theories akbari delves into more detailed studies of several medieval literary works including the roman de la rose dante s vita nuova convivio and commedia and chaucer s dream visions and canterbury tales the final chapter division and darkness centres on the legacy of allegory in the fifteenth century offering a new interdisciplinary synthetic approach to late medieval intellectual history and to major works within the medieval literary canon seeing through the veil will be an essential resource to the study of medieval literature and culture as well as philosophy history of art and history of science
